

Face au Brexit, comprenez notre colère !

Depuis le 4 mars 2019, les douaniers dénoncent le manque de préparation du gouvernement et souhaitent assurer leurs missions afin de vous protéger vous et vos enfants des trafics.

MAIS :

- Le manque de moyens matériels et humains les empêche de travailler.
- Depuis 20 ans la Douane a perdu 6000 emplois et ferme ses bureaux et brigades alors que le commerce international explose.
- Le manque de reconnaissance et la surcharge de travail épuisent les douaniers.

Réponse du Ministre Gérald Darmanin :

- Du mépris et des mesurette,
- Menaces de sanctions,
- Intimidations de la part de l'encadrement,
- Mieux, interdiction de réaliser des contrôles et tant pis si la drogue et les armes circulent...

Nous voulons :

Des moyens pour vous protéger !
Du respect !
La reconnaissance de l'absolue nécessité de notre tâche !

ANNOUCEMENT OF ANGRY CUSTOMS OFFICERS

Since March 4th, customs officers throughout France denounce the government's unpreparedness as regards BREXIT and the lack of material and human resources attributed by the public authorities to deal with it.

For 20 years, French customs have lost 6000 agents and many services and brigades have closed, undermining the public service in the territories and our ability to control and fight against trafficking (capital, narcotics, weapons, protected species, waste, product safety ...)

Today, at a time when the departure of United kingdom from the European Union is taking shape, the customs agents demand that finally adequate means be given to them to fully exercise their missions in the service of population as well as the recognition of their qualification and constraints.

The measures announced by the minister in charge, Gérald DARMANIN, under the threat of sanctions are not likely to meet our concerns.
